The Privacy Rule is carefully balanced to provide strong privacy protections that do not interfere with patient access to, or the quality of, health care delivery. HIPAA has an impact upon how OPWDD and contractors will deal with protected health information of our consumers. Likewise, State Mental Hygiene Law § 33.13 requires disclosure of clinical records to be limited to that information necessary for health care providers to administer treatment.

P. General Duties and Additional Responsibilities

Maintain a level of cooperation with OPWDD necessary for the proper performance of all contractual responsibilities. Agree that no aspect of bidder performance under the Agreement will be contingent upon State personnel, or the availability of State resources, with the exception of all proposed actions of the bidder specifically identified in the Agreement as requiring OPWDD's approval, policy decisions, policy approvals, exceptions stated in the Agreement or the normal cooperation which can be expected in such a contractual relationship or the equipment agreed to by OPWDD as available for the project completion. Cooperate fully with any other contractor that may be engaged by OPWDD. Agree to meet periodically with OPWDD representatives to resolve issues and problems. Recognize and agree that any and all work performed outside the scope of the Agreement or without consent of OPWDD shall be deemed by OPWDD to be gratuitous and not subject to charge by the bidder.

"Contractor shall comply with the provisions of New York State Information Security Breach and Notification Act (General Business Law § 889-aa; State Technology Law § 208). Contractor's negligent or willful acts or omissions, or the negligent or willful acts or omissions of Contractor's agents, officers, employees, or subcontractors."

numbers. (Private data is considered unencrypted when either identifying information or the data element is not encrypted or is encrypted with a key that has been acquired).

The Act authorizes the State Attorney General to sue a business violating the statute in order to recover damages for actual costs or losses, including consequential financial losses incurred by persons entitled to notification. If a business engages in knowing or reckless violations, the court can impose a civil penalty of the greater of \$5,000 or \$10 per instance of failed notification up to \$150,000. The remedies provided by this section shall be addition to any lawful remedy available, possibly permitting private actions.

15. Consumer Safety Information

OPWDD provides services to individuals exhibiting Pica, which is a medical disorder characterized by an appetite for largely non-nutritive substances, e.g., cigarette butts, paper, gum, etc. Attention to the sanitation and cleanliness of the areas surrounding OPWDD's state operated program sites and residential buildings is very important to the health and safety of those we serve. Please ensure care is taken to properly dispose of cigarette butts and rubbish while on OPWDD property.

OPWDD property has special receptacles for cigarette butt disposal. Contractor and subcontractor employees shall use these receptacles and throw trash in garbage cans or dumpsters. Compliance with this policy is appreciated.

16. Consultant Disclosure

Effective June 19, 2006, contractors doing business with the State of New York in a "consulting" capacity will be required to file forms disclosing, by employment category, the number of persons employed by them and their subcontractors (if any) as a consulting firm or an individual consultant; the number of hours worked; and the monetary compensation received from the State of New York for work performed by these employees. Reporting will be required via the utilization of two separate forms – "Form A" and "Form B".

In general, however, Form A is to be completed once upon initial contract award and is used to report "planned employment". Form B is required annually and reports on "actual employment figures" for the preceding state fiscal year. The New York State fiscal year commences on April 1st and concludes on March 31st.

17. Evaluation Criteria: Method of Award

OPWDD will select the responsible and responsive Bidder that will provide the lowest Total Estimated Annual Combined Cost for each County. A bidder may bid on one or multiple counties. A bidder may win one or more counties. Multiple contracts may be awarded. All sites included in the county are to be serviced by the winning bidder. Only proposals judged to be responsive to the submission requirements set forth in this IFB will be evaluated. OPWDD reserves the right to reject any and all offers.

The award will be based on one (1) annual inspection with preventative maintenance and start up visit for each location and the estimated labor hours and parts costs as given for each county listed. Annual inspection and start up rate is per location; all units at the given location are to receive annual inspection and start up for this rate. It is understood that there may be more or fewer repair hours and parts needed. There is no guarantee and payment will be made based on actual repair hours and parts used.

Should mathematical errors be made by the bidder when calculating the Total Estimated Annual Combined Cost per County, the prices given for each location in Part A: Rate, Part B: Mon – Fri 8am to 5pm, Off Hours, and Holiday Hourly Rate, and Part C: Parts Markup will be used to calculate the Part A Total, Part B Total, and Part C Total to determine the Total Estimated Annual Combined Cost per County. In the event that a Markup percentage exceeding the cap of 20% is used, the percentage will be reduced to 20% and the Total Estimated Annual Combined Cost per County will be recalculated.

If a Cost Proposal Form is not completely filled out, it may not be considered. Do not alter the Cost Proposal Form(s) in any way as doing so may disqualify your bid. Be sure to include the Signature Page (page 38) with any Cost Proposal Forms you are submitting.

In the event of a tie bid, the award will be made by random selection
